Two Women Killed

decided that an inquest was unneccessary. The body of one of the women was thrown 75 yards and was badly mangled; the body of the other was merely thrown from the track. The accident was witnessed by the section crow, which was working on the track nearby. The crossing is or a curve and it seems that the engineer did not blow and the victims were not looking. The women moved to Mr. Holland's farm Saturday and were strangers in the community. The bodies were turned over to a nephew of the older woman and taken to Bessemer City

Frozen to Death.

Winston-Salem, Special.—Parties here from Yadkin reported that a man, with his two children, traveling in a one-horse wagon, were held on the boat at Conrad's ferry several hours yesterday afternoon, and that the children came near freezing to death. The mush-ice floating down pected. the river prevented the ferryman from operating the boat after it reached the middle of the stream. The man in charge of the ferry found it necessary to get out and wade to the bank. There he secured a rope. Attaching one end of this to a windlass and the other to the boat the man and his children were pulled to the shore. The Yadkin river is unusually low. In some places it is not over two feet deep. This is accounted for by all of the smaller tributary streams being

RUTH CLEVELAND DEAD

Oldest Daughter of Ex-President Fell By Diptheria,

Princeton, N. J., Special.-Ruth, the eldest daughter of Mr. and Mrs. Grover Cleveland, died in this city Thursday very unexpectedly, the immediate cause of death being a weakening of the heart action during a mild attack of diphtheria. Dr. Wyckoff, the atder Has Been Spent Trying to Heal tending physician, said that Miss Cleveland had been ill with a mild form of diphtheria for four days, and that the heart affection was not anticipated.

The Cleveland household is griefstricken over the death of the oldest daughter and many messages of condolence are being received. The private school which Ruth attended has been closed for the rest of the week out of President John N. Ninley, of the Col-

Salt Lake City, Special.-The Desert News says the government inspectors, including James H. Bennett, of Cheyenne, have been in the city for two weeks in an endeavor to subpoenae former First Assistant Postmaster General Perry S. Heath, but have not yet succeeded in serving the papers. It is said that the papers have been placed in the hands of the United States marshal. Mr. Heath's presence, it is stated, is required in the East in connection with some phases of the postoffice investigation.

To Abolish Office.

Washington, Special.-Secretary Hitchcock, of the Interior Department, has recommended to the President that the office of railroad commissioner, held by the late General James Longstreet, be abolished. It seems probable now that the recommendation will be adopted and that no successor to General Longstreet will be appointed. For two years the Interior Department has made no estimate for the salary of railroad commissioner, the necessary appropriation for General Longstreet's salary of \$5,000 being made by Congress on its own initiative. The duties of the office practically have been absorbed by the Inter-State Commerce Commission.

of Greensburg, Kan.

The dead are: Mrs. J. H. Hill, Greensburg, Kan.; Mrs. W. S. Martin, St. Joseph, Mo.; Mrs. Mary Harvaille, Chillicothe, Mo.; Ben Harvaille, son of Mrs. Harvaille, aged 13; Tot Harvaille, daughter of Mrs. Harvaille, aged 3; Mrs. Susan Reed, a sister of Mrs. Harvaille; James Griffin, Claremont, Mo.; E. E. Mayer, Buffalo, N. Y.; Raymond A. Martin, Chillicothe, Mo.; W. S. Martin, St. Joseph, Mo.; E. R. Rankins, De Kalb, Mo.; William J. We'ls, Jack-sonville, Ill.; Mrs. Mary Kaiser, Russian; Gale Fuller, aged 7, Brockton, Iowa; Grace Reed, Chillecothe, Mo. Lenora Reed, Chillicothe, Mo.; unidentified boy, aged eight years.

It is thought that carelessness of the trainmen caused the wreck. Instruct. ed to meet a special freight train at Willard, the engineer and conductor of the ill-fated passenger, noting that a freight train stood in the siding at Willard, rushed through, thinking that the cars that they had seen were the ones which they had been instructed to

A formal inquest was held at the wreck today by Coroner Dooly, of Wabunsee county. The investigation will be continued tomorrow.

H. G. Parsons, a reporter of the To peka State Journal, who was on the wrecked Rock Island train, arrived in Topeka at eight o'clock this morning. after driving overland from the scene slight injuries, while two persons on the seat in front of him were killed. Parsons tells the following story of the

"It was in the third car of the passenger train, the first coach having been preceded by a smoker and a baggage car, that the greatest loss of life occurred. The smoker, which was oc cupied by only two or three men, was overturned and pushed through the car behind it, which was crowded with passengers, some standing in the aisle. The first warning given the pasengers in this car was when the sudden set ting of the air brakes shut off the lights, leaving all in darkness. A moment later a mass of splintered wood and iron was crowded down upon them. None were thrown out of their seats by the glow. Most of those in the forward end of the car were killed instantly. Thirty in the rear end of the coach, however, succeeded in escaping from that end of the car which was still unobstructed. No one in the front half of the car escaped. They were crushed down between the seats of the smoker. When rescue was finally possible only three living persons were taken out by the rescuers, who were compelled to chop holes in the side and through the floor and top of

the coach to reach them. "The three rescued from this portion were a man, a small girl, middleaged woman, who were begging to be taken out. One man, hurt internally, was removed through the rear door within five minutes after the collision, but died almost as soon as the res cuers could lay him down. A woman died two hours later while trying to tell a physician her name. A dozen men had worked on the place where she seemed to be before she was extricated. "Bonnie Martin, a girl 11 years old,

was pinned down between the two cars, the heavy stove resting on one foot. Her cries attracted the rescuers and men, many of them bleeding from wounds about the face and arms, worked heroically to get her out. It took some time to release her. When she was taken out she addressed the doctor who was bending over her as "papa." The physician did not have the heart to tell her that she was an orphan, her father and mother having been killed. Mr. Martin was killed instantly and Mrs. Martin died ten minutes after being taken out of the wreck. The child was suffering with a broken ankle, where the heavy stove fell on her, and severe scalp contusions. She was put to sleep by a hypodermic injection to relieve the pain. "Some of the bodies found in the wreckage were so badly crushed as to be unrecognizable. Through a hole chopped in one side of the car the body of a gray-haired, heavy-set man and a woman with long, yellow hair, were visible. Fires were built along the track at short intervals and by the light of these the rescuers, in their eagerness to remove the victims, chopped openings in the wrecked chaches until exhausted and then they handed their axes to others. The entire sides of the car had been chopped away when the work was completed. Occasionally the rescuers would desist upon an alarm being raised by watchers, who declared that the chopping away of the coach was letting the smoker down upon the victims. So terrific was the force of the collison that the smoker left the truck in its backward rush, leaving the trucks still upon the track. Not a wheel in the entire passenger train seemed to be off the track The freight train fared differently.

The four cars immediately behind the engine were crushed into kindling. Dead and dying cattle littered the right of way, while many which had escaped from the cars uninqured ran about adding to the confusion.

The evident intention of this piece, as you show, is to make it appear that the State financially is in fine shape. In your editorial if we had borrowed no money last spring and had paid the school and tion will be held before another report is made and of course all that ATTRIBUTE THESE TOFUSION RULE? is said about the State's finances will be based on this report and if any one should undertake to quote from In 1902 the Democrats waged a the figures in The Republican the great educational campaign in the reply will be the old stock arguradical lie." Now it so happens that since that editorial was printis that letter just as it is:

er and while we are at it let's examine it a little and see if it does not confirm every word in your ditorial. In the first place it admits that the \$400,000 of schoo and pension appropriations were unpaid and were to remain unpaid "Justice" in the Union Republican Turns until after Dec. 1st, when this fi-cal year will be clo-ed This is exactly what your ditorial stated Now if we add this \$400,000 to the \$410, 000 borrowed last spring, We have \$810 000 of borrowed money and unpaid appropriations and this lett r says the treasurer has less than what the Auditor's report would \$120,000 with which to pay it. This shows there would be a deficit of more than six hundred thou-and dollars in our treasury at this very time or that we would have to berrow that much money if we were forced to pay back the money we borrowed and the approp lations due at this time But the people are supposed to forget the \$400,000 borrowed last spring and when they complain of the increase in taxes they are expected to be satisfied wi h the explanation that this is an edu ational administration, and DAY, SLEEP LAY DOWN WITH have amounted to \$2,201,604.31. then so far as the other \$400,000 for pensions and schools are concerned they can and have been shoved into the next fi-cal year with the hope that the increased taxes will provide for them and if it does not the deficit will not be known until after the next election and then the Saviour illustrated they should be Democrats will be in four years used. That the truth and the whole more and the people can help them- truth may be made plain and laid selves the best way they can. At 70 of Heart Disease Contracted

During Civil War-Veteran Grateful.

Dr. Miles' Heart Cure Effected Cure.

Heart disease is curable, but in people of advanced age it does not readily lend itself to ordinary treatment. There is, however, hope for all sufferers in Dr. Miles' Heart Cure, which we know from watching hundred to cases and from the letters of grateful dreds of cases and from the letters of grateful sufferers, will cure where all else has failed. It is not only a wonderful cure for weak and diseased hearts, but it is a blood tonic, a regulator of the heart's action and the most effective treatment ever formulated for improving the circulation of the blood.

"During the Civil war I contracted heart isease, and in 1896, while living in the grand ld town of Lexington, Va., I grew so much orse, I left there with my wife to visit my sister-in-law, Mrs. T. A. Kirby, at Roanoke, Va. While I said nothing to anyone I never expected to live to return to the dear old town. On reaching Mrs. Kirby's she insisted I should try Dr. Miles' Heart Cure. I pro-cured a few bottles of it, al o the Nervine could see no improvement, and I despaired of ever being better, but my faithful wife insisted on keeping it up, which I did. Im-provement soon began in earnest and I took in all fifteen or sixteen bottles. I was restored to perfect health and while I am 70 years old, I am comparatively a boy. You sir, are a benefactor, and I cheerfully recommend Dr. Miles' Heart Cure to suffering humanity."—J. L. SLAUGHTER, Salem, Va.

THE NECESSARY MAGAZINE IN THE PRESIDENTIAL YEAR

The Review of Reviews is often called a necessity, in recognition of its usefulness in keeping readers "up with the times."

In Presidential election years the REVIEW OF REVIEWS is more than ever "the necessary magazine." Everybody wants to be truly and quickly informed about this or that public question that has forged to the front; to know about the new candidates and personal factors in politics, to have a complete picture at hand of the current movement of

In Dr. Shaw's editorials, in its authentic and timely contributed articles, in its brilliant character sketches, in its condensations and reviews of all the important articles of other magazines, and in its hundred a month of valuable portraits, witty cartoons, and interesting views, the REVIEW OF REVIEWS gives the much desired news of the world's and our own progress. "The World under a Field-glass" is the way one subscriber describes it.

Men in public life, like President Theodore Roosevelt, the members of Congress, and the great captains of industry, who must keep "up with the times," intelligent men and women all over America, have decided it is "indispensable."

ROYAL FRIENDS OF BIRDS.

Treaty for Their Protection Signed by European Sovereigns.

Recently a novel treaty was signed by almost all the sovereigns of Eu rope at the suggestion of M. Mougeot the French minister of agriculture. His attention having been drawn to the fact that in various places throughout Europe an incessant war is being waged against small and harmless birds, he thought that it would be a good idea for the rulers of the different countries to protect them, and this idea he promptly carried out.

The treaty has been signed by President Loubet, Emperor William of Germany, the king of Sweden, the king of Spain, the Swiss government, the king of Greece, the prince of Monaco, the emperor of Austria, the king of Portugal and the king of the Belgians, and the document clearly it is necessary to protect the birds is many farmers who are still convinced | much bearing on the total. that small birds are a serious menace to crops.-New York Herald.

Deathbed Thieves.

In France persons who live at the expense of others have discovered a novel and shameful method of thieving. They practice it only at funerals, and hence they are known as "death-

When they read in a newspaper that a well-to-do person has died, some of nem go to the house an hour or two before the funeral takes place and coolly mingle with the invited mourners. Of course the members of the family do not know them, but they naturally assume either that they were known to the deceased and have come to pay their last respects or that they were invited to be present by some aunts or cousins who are unable to attend in person.

Miss Gannon, Sec'y Detroit Amateur Art Association, tells a dozen or fifteen fowls comfortably, young women what to do to avoid pain and suffering caused by female troubles.

"DEAR MRS. PINKHAM: - I can conscientiously recommend Lydia E. Pinkham's Vegetable Compound to those of my sisters suffering with female weakness and the troubles which so often befall women. I suffered for months with general weakness, and felt so weary that I had hard work to keep up. I had shooting pains, and was utterly miserable. In my distress I was advised to use Lydia E. Pinkham's Vegetable Compound, and it was a red letter day to me when I took the first dose, for at that time my restoration began. In six weeks I was a changed woman, perfectly well in every respect. I felt so elated and happy that I want all women who suffer to get well as I did." - MISS GUILA GANNON, 359 Jones St., Detroit, Mich., Secretary Amateur Art Association. - \$5000 forfeit If original of above etter proving genuineness cannot be produced

DAIRY FARM SIDE LINES. Along with dairy farming naturally goes the poultry business. And a nice, clean, profitable business it is, too. Here is a fine field for the women folks. They naturally take more pride in chickens than the man does, although now and then we do find men who enter heart and soul into the keeping of poultry. There is always a good deal of skimmed milk on the dairy farm which would be apt to go to waste were it not for the hens. They over 10,000. are the greatest of scavengers. Every drop of the sour and skimmed milk is a delicious morsel for the hen, and she will turn it to good account, too.

COMMERCIAL FERTILIZERS.

As commercial fertilizers are usually formula printed on the bag as re- mond Castle off the French coast in quired by law. Often times there are a dozen ingredients mentioned and no doubt all of them are contained in the mixture, but, as every farmer knows. or should know, the agricultural value of any fertilizer lies wholly in the amount of nitrogen (generally placed on the fertilizer bag as ammonia) notash and phosphoric acid it contains. Beyond these three ingredients the farmer has no interest. While the commercial value of the plant foods vary in different sections the variation is but slight, hence one can safely figure nitrogen as worth seventeen cents states that the principal reason why a pound, potash four and one-half cents | In five straight days they pressed sixa pound, and phosphoric acid at four because they are of great service to cents a pound. Of course the forms agriculture. This has long been evi- of potash and phosphoric acid vary 258 tons. This is claimed to be a recdent, but unfortunately there are in price, but not sufficient to have

We will assume that the analysis on a certain brand calls for two per cent. of potash, eight per cent. of available phosphoric acid and three per cent. of nitrogen (ammonia). This would make in a ton of fertilizer forty pounds of potash at four and one half cents a pound, \$1.80; 160 pounds of available phosphoric acid at four cents a pound, \$6.40, and sixty pounds of nitrogen (ammonia) at seventeen cents a pound, \$10.20, a total for the ton of \$18.40, which represents the actual commercial value of the ingre dients in the ton of fertilizer which are of use to the farmer. The difference between this amount and the amount asked for the fertilizer represents cost of packing, labor, profit, etc. invested by the manufacturer. From these figures one can readily ascertain for himself if he is paying a higher price for having the fertilizer mixed for him than is warranted.

LOW-PRICE POULTRY-HOUSES. The poultry-house that is low in price is not, of necessity, an inferior house, for if it is built with due regard to the economy of lumber and the work is done by one's self the cost may be materially reduced. This illustration shows a house that can be built for \$15 in most sections, but at this price little dressed lumber can be used. The house proper is eight by eight feet in side; the scratching shed six by eight feet, and the yard of any dimensions desired. This house will accommodate

more if in a section where the scratching shed can be used daily.

The upper part of the illustration shows the inside arrangement of the house, and it will be seen that room is economized to the best advantage. In this arrangement the roots are in the rear of the house and the nest boxes on the side, leaving considerable floor space in the middle of the house. In the corner of the scratching shed the grit box and the water fountain are placed and all of the feeding is done in this shed. The opening between the shed and the house is only large enough for the fowls to pass through. From the illustration and description any one can build a small poultry. house within the figures named which will be comfortable and attractive.

During the middle ages gunpowder, clocks, telescopes, parchment, paper, and the mariner's compass were invented or adopted.

No Vowels in It. Many places have curious names, but apparently there is only one place which has a name without any vowels. That place is the little hamlet of Ws near Paris. Ws being an unpronounceable name, the inhabitants of the hamlet have transformed it into "d'Us," but this change has not been sanctioned legally, and on all the official records the name Ws still ap pears. The hamlet has 117 inhabiants, and its sole attractions are the Chateau d'Osny, which has been for many years in the possession of Edmond About's family, and the Chateau de Vigny, which is one of the best specimens of the Renaissance style of

W. J. CRAIG, General Passenger Agent, J. R. KENLY, Gen'l. Manager. T. M. EMERSON, Traffic Manager, Her Engagement,

A certain music hall belle, who had fust successfully "landed" an old and wealthy nobleman, sued an unpopular theatre manager in London, George Gissing, the novelist, died recently of consumption at St. Jean de alleging that he had not paid her sufficiently well for her engagement at Lord Cromer, the real ruler of Egypt, his place. She won the case, and was immediately inundated with flowery congratulations from her friends, all of whom were glad to see the manager go down.

Not content with her victory, however, the belle must needs crow over her beaten rival by packing up the choicest telegrams and despatching them to his house, with the intimation that he might make what use of them he thought proper.

She regretted this last concession the next morning. Taking her at her word, the manager pasted the telegrams on a board outside the music hall, headed them "What Miss Flightle's friends think of her engagement." and left the public to assume which engagement-the professional or the matrimonial-was meant.

Then followed such messages as "Good for you, old girl!" "Pinned the old horror at last!" "Don't let him wriggle off the hook!" "Stick to him till you get the dibs!" "Congratulations on your splendid haul!"-Boston Journal.

Charged With Blgamy.

Minneapolis, Special.—Samuel C. Hazzard, alias Samuel Hargrave, a former officer of the United States army, has been arrested in this city for alleged bigamy. Hazzard is a graduate of West Point, and served four years as instructor in the army. As a lieutenant in the army Hazzard went all over the country as inspector. He also went to Europe, it is said, to inspect the armies of foreign countries, and was held in great favor at army headquarters in Washington

Trouble in the Family.

Dr. Bloomfield, who was for some years bishop of London, became a widower rather early in life and soon afterward married again. By his first wife he had several children, and his second wife was a widow, who also had several children by her first husband. In due time other olive branches | Lv. Wilmington, came to the bishop and his wife, and Lv. Hamlet, of youngsters it can readily be imagined that a good deal of noise and at times unseemly quarrels disturbed the episcopal palace at Fulham.

One morning while the bishop was engaged in studying some philosophical work, his wife burst into the 11 brary and exclaimed: "Hurry, hurry!" "What is the matter, my dear?" he

asked anxiously. "There's a good deal the matter." was the reply, "and there's not a moment to be lost, for your children are after murdering mine, and now they're on the point of strangling our

Ripans Tabules are the best dyspepsia nedicine ever made. A hundred millions of them have been sold in the United States in a single year. Every illness

arising from a disordered stomach is relieved or cured by their use. So common is it that diseases originate from the stomach it may be safely asserted there is no condition of ill health that will not be benefited or cured by the occasional use of Ripans Tabules. Physicians know them and speak highly of them. All druggists sell them. The five-cent package is enough for an ordinary occasion, and the Family Bottle, sixty cents, contains a household supply for a year. One generally gives relief within twenty minutes.
